Eurotax reinforces its position as a leading provider of alcohol excise compliance solutions in Europe with the acquisition of Vinaficio

Paris, France – November 12, 2026

We are delighted to announce the acquisition of Vinaficio, a recognized specialist in alcohol excise duty and VAT management for the wine and spirits industry across Europe. Through this acquisition, Eurotax further reinforces its position as one of the leading providers of alcohol excise compliance solutions in Europe.

For many years, **Eurotax** has been supporting producers, merchants, distributors, marketplaces, and e-commerce operators with comprehensive solutions covering excise duties, VAT, customs formalities, fiscal representation, and digital compliance services throughout Europe.

Vinaficio has built a strong reputation by helping wine professionals manage excise duties and VAT obligations in numerous European countries through a practical, customer-focused approach and a network of local customs and tax expertise.

By joining forces, we combine the best of both organizations: Eurotax's scalable digital compliance platform and extensive European coverage, together with Vinaficio's recognized expertise and long-standing relationships within the wine sector. This strategic combination will allow us to offer an even broader range of services and greater support to all stakeholders in the alcohol industry across Europe.

We are also pleased to welcome **Cécile Rostan**, who joins Eurotax as *Excise Business Developer*. Since 2011, Cécile has developed extensive expertise in excise duties and VAT, becoming a highly respected professional in the sector. Her experience, industry knowledge, and strong network will further strengthen Eurotax's leadership in alcohol excise compliance.

This acquisition and new arrival mark an important milestone in Eurotax's growth journey. Together, we are creating an even stronger European leader dedicated to simplifying compliance and supporting the growth of wine, beer, spirits, and alcohol e-commerce businesses throughout Europe.

"Together, we are building the future of alcohol excise compliance in Europe."
